

# JULIAN VALLE

## FRONT END WEB DEVELOPER

### SUMMARY

Javascript developer with experience working in React. I can start from wireframe to prototype, all the way to final product bringing high quality, fast, responsive websites for clients. I come from a nontraditional background of psychology which gives me a keen insight into client needs and a deeper understanding of user behavior in order to deliver tailor made user experiences and designs.

### EDUCATION

Fresno State University  
Psychology B.A.      Fall 2011 to Winter 2014

### PROJECTS

Atole Media      Oct. 2019  
A web site made for a video game startup using Gatsby. This was my first time attempting Gatsby and deploying to Netlify which taught me more about React components, using CSS in JS and learning more about the React lifecycle.

Lena's Videotheque  
A blog site I made using a Gatsby template. It uses markup files in order to make new blog posts.

Movie Quote Generator  
Made using Create-React App. Worked using API and had to learn more about the React lifecycle and file organization.

Markdown Previewer  
An app that translates markdown files and allows you to preview how they might look in your website.

The Adventures of Danny Boy  
Helped make the game using jQuery in a school project. Worked on the timer, game mechanics and cursor positioning.

### SKILLS

**FRONT END:** HTML5, CSS3, JavaScript, React, SASS/SCSS, Git, Windows, Mac  
**MISC:** Slack, Team Organization, Agile Methodologies, G Suite

### AWARDS

freeCodeCamp.org · Responsive Web Design Certificate      Sept. 2018  
Certificate showing I completed 300 hours of learning Responsive web design using HTML and CSS
