Julian Valle

Creative Front End Developer looking to take advantage of my passion for creating beautiful websites in a company where I can grow my skills.

PROJECTS

Portfolio Site — https://theuncannyvalle.com

Built using React. Js and Gatsby. Optimized for SEO and fully responsive.

Uses GraphQL to query data within the site. Also uses Styled-Components for CSS in JS

Sapa Fashion— https://sapa-fashion.netlify.app/

Built using Gatsby for the front end and Shopify for the backend. Built in a way so a client can just add products through Shopify and the site queries the data and dynamically creates the pages for the products.

Avocado Clock — https://avocadoclock.netlify.com/

Built using React Hooks and exemplifies understanding of the React lifecycle and Asynchronous Javascript.

EXPERIENCE

Self Employed, Remote— *Freelancer*

MARCH 2020 - PRESENT

Building sites for local businesses and clients using JavaScript, HTML, CSS and React.
